Company Overview:

EURO BIOM is a UK-based pharmaceutical export company, established in 2024, purpose-built to operate where conventional supply chains fail.

We specialise in urgent, complex, and non-routine pharmaceutical supplies, supporting healthcare systems, institutions, NGOs, with an active presence in over 40 countries worldwide. Our work is defined not by price competition, but by capability, speed, and regulatory execution.

What We Do:

We support clients in scenarios where medicines are:

- Unavailable or in shortage in local markets
- Unregistered or subject to special regulatory pathways
- Required urgently for patient-critical or emergency use

Our strength lies in handling non-standard, time-critical, and regulation-heavy supply cases with precision and reliability.

Our Core Capabilities:

- Unregistered & Special-Requirement Medicines
- Emergency & Time-Critical Shipments
- Institutional, NGO & Tender Supplies

Products & Services:

- Branded, Generic & OTC Medicines
- Unlicensed Medicines
- Blood Products
- Vaccines

Our Positioning:

We are not a general trader.

We are not a volume/ price-led wholesaler.

EURO BIOM exists for cases where:

- The challenge is execution, not availability
- The requirement is speed, not volume
- The risk is regulatory, not commercial

Global Reach:

- Active presence across 40+ countries
- Serving Europe, Middle East, Africa, CIS & Asia
- Trusted partner for complex export programmes

A pharmaceutical export partner built for urgency, complexity, and global reach.
